GG WORKLOAD MOVING TO RICHFIELD

Number: 265
Issued Date: March 24, 2000
Effective Date: Sept 19, 1998
Section/Groups: Systems / Security
Submitted By: Dave Jeffs
Approved By: Clair Christensen

On September 19, 1998 the workload associated with General Government processing will be moved to the Richfield site. Any workload that currently accesses CICSGG, FI-NET, and/or Payroll will be moved to Richfield.

Batch jobs that currently use job classes G, M, R, and F will be automatically routed to the Richfield site as well.

Data sets with a high level prefix (CS, FI, FO, IC, NR, PA, PE, SR) that reside on either 3490 tape or disk will also be moved. The 3480 tape data sets will remain in Salt Lake City. Access to data sets with these high level nodes will be denied, including CICSGG, ADABASGG, TSO, and any batch jobs beginning September 18, 1998 at 8:00 A.M. These data sets will become available in Richfield on Monday September 21, 1998 at 6:00 A.M. Job classes G, M, R, and F will also NOT be available during this time.

General government (FI, PE, SR, NR) ADABAS data will move from Salt Lake City databases to Richfield databases as follows:

    ADABASGG (dbid=001) moves to ADABASRG (dbid=101)
    ADABASD1 (dbid=002) moves to ADABASRD (dbid=102)
    ADABASD2 (dbid=012) moves to ADABASRD (dbid=102)
    ADABASAT (dbid=005) moves to ADABASRA (dbid=105)
    ADABASA2 (dbid=015)   moves to ADABASRA (dbid=105)
    ADABASM1 (dbid=011) moves to ADABASRM (dbid=111)
    ADABASM2 (dbid=016) moves to ADABASRM (dbid=111)
    ADABASTR (dbid=009) moves to ADABASRT (dbid=109)

Applications that have dbid coded in them will need to change to the appropriate number.
